Public Protein/Plasmid Library

Desert hedgehog protein (DHH), Human

Cat.no. PK0250
Product size: 10μg  50μg  1mg
Source: E. coli
Species: Human

Biological Activity: ED50 < 10μg/, measured by its ability to induce alkaline phosphatase production by CCL-226 cells, corresponding to a specific activity of > 100 units/mg.

Molecular Weight: ~20 kDa, observed by reducing SDS-PAGE.

Formulation: Lyophilized after extensive dialysis against PBS.

Reconstitution: Reconstituted in ddH2O at 100 μg/ml.

Purity: > 95% by SDS-PAGE and HPLC analyses.

Endotoxin Level: < 0.2 EU/μg, determined by LAL method.

Storage: Lyophilized recombinant Human Desert hedgehog protein (rhDHH) remains stable up to 6 months at lower than -70°C from date of receipt. Upon reconstitution, rhDHH remains stable up to 2 weeks at 4°C or up to 3 months at -20°C.

Description: Desert hedgehog protein (DHH) is a member of the Hedgehog family which encodes signaling molecules that play an important role in regulating morphogenesis. It is predicted to be made as a precursor that is auto-catalytically cleaved; the N-terminal portion is soluble and contains the signaling activity while the C-terminal portion is involved in precursor processing. More importantly, the C-terminal product covalently attaches a cholesterol moiety to the N-terminal product, restricting the N-terminal product to the cell surface and preventing it from freely diffusing throughout the organism. Defects in this protein have been associated with partial gonadal dysgenesis (PGD) accompanied by minifascicular polyneuropathy. DHH may be involved in both male gonadal differentiation and perineurial development. DHH binds both Patched and Patched 2 as well as Hedgehog interacting protein (Hip). It induces steroidogenic factor 1(SF1), which is instrumental in promoting Leydig cell differentiation. It also promotes the deposition of basal lamina surrounding seminiferous tubules. Recombinant human Desert hedgehog (DHH) produced in Escherichia Coli is a single non-glycosylated polypeptide chain containing 177 amino acids.
